Session Overview

Many communities are unaware that starting January 1, 2024, there is a new option for health insurance available for undocumented immigrants who are age 65 and older. This program can be a tremendous asset to help meet the health needs of Older Immigrants. The new insurance offers a more comprehensive benefit package for this population who previously only qualified for Emergency Medicaid. Aging network advocates and other organizations who work with the elderly and/or immigrants should become aware of this new program.

In this session you will find out:

- Who is eligible and the guidelines
- How they can find assistance
- What types of health care are available under this program
- How to opt out of the coverage
